TESTIMONIALS

"Jordan was actually the 4th recruiter I have engaged over the past ten years, and without a doubt, she has been the best (I am not saying that because she asked me to or paid me). As an example, we actually had two recruiters working for us starting in October, and within a week Jordan gave me 5 really good candidates to speak with, which led to me weeding it down to three I did in person interviews with. In the meantime, the second recruiter gave me one prospect six weeks later, that I didn't even interview. Jordan masterfully captured what I was looking for, listened, and found exactly what I needed. So much so that I ended up actually hiring two of the three guys we interviewed because we thought they were that good. We're actually in the process of hiring another person right now in my McLean, VA office, and Jordan was the first person I reached out to to help us fill this roll."

- *WEALTH MANAGEMENT CLIENT*

"Jordan was great to work with! Not a typical recruiter. She made the whole process easy and understandable. She was able to communicate effectively and has a very fast response time when I had any questions. I would definitely recommend Jordan to anyone who is looking to make a job change. At the very least hear her out. Jordan has some great opportunities and works with a bunch of great companies."

- *WEALTH MANAGEMENT CANDIDATE*

"Jordan is a great recruiter to work with. She was able to balance the needs of the hiring company and the potential employee very honestly. If I had any questions, she was easily reached or would get back to me right away. She brought up road blocks I wouldn't have even thought of so that we could get them figured out ahead of time. If you don't use Jordan to find your employees, you are missing out."
